Data usage agreement for the participation to the **standardized evaluation framework for Computer-Aided Diagnosis of Dementia based on structural MRI data**

We, the undersigned, agree to contribute to the **CADDementia** evaluation framework.

The undersigned:

- pledge that none of the MRI data sets, demographic information and associated diagnostic labels provided by the organizers will be given away or distributed under any circumstances to persons other than the people mentioned above.
- pledge that the data will be used exclusively for the evaluation of computer-aided diagnosis methods through the CADDementia evaluation framework.
- pledge that, when submitting results to CADDementia, they agree with presentation of these results on any medium including the web site and journal publications.
- pledge that, when publishing obtained results, they will apply to the following **publication guidelines**:
  - include the following citation in the methods section of the manuscript:
